The Golden Gate Bridge is considered the gateway on the road from the Pacific Ocean into San Francisco Bay, connecting the cities of San Francisco at the northern tip of the San Francisco peninsula with Marin County near the town of Sausalito to the south. The bridge is 2.7 km long, the distance between the spans is 1,280 meters, 67 meters above the water surface, and the two steps have a high speed of 230 meters from the water surface.

Interesting Facts About the Golden Gate Bridge

1. The diameter of the main slings is 0.91 meters. At the time of its creation in 1937, the Golden Gate Bridge was considered the longest suspension bridge in the world, however, this rating was changed on November 21, 1964, by the Verrazano Narrows Bridge in New York.
2. The name Chrysopylae, also known as the Golden Gate, was given by geoengineer John C. Fremont, thanks to this bridge reminding him of the Chrysoceras harbor - Golden Buffalo Horn - in the city of Istanbul, Turkey.
3. Golden Gate Bridge - Golden Gate by architect Joseph Strauss - A passionate engineer, previously built 400 bridges across the United States. The process of designing and building is very arduous and dangerous, but it is 'a tragic song for passion and courage'.
4. 19 people who escaped death during the construction of the bridge have been included in the list of members of the project list of an organization called Half Way To Hell, an organization for people who have been 'out of their souls'.
5. President F. Roosevelt officially pressed an electric button to celebrate the information car, marking the birth of one of the greatest bridges in human history in 1937.

Experience Sightseeing, Taking Photos at the Golden Gate Bridge

San Francisco people encourage customers to see the Golden Gate Bridge early in the morning, through the Presidio park located along the coast. It is an interesting journey along the craggy cliffs, and along the way, visitors will be able to see the bridge from many different angles.

There is nothing more wonderful than if visitors have the opportunity to witness this legendary bridge covered in fog. It looks mysterious and has a bit of a dreamlike feel. At this time, the Golden Gate Bridge will be revealed piece by piece when the sun rises and then finally shines in the sunshine, against the blue sea. From the Golden Gate Bridge, visitors can easily explore other tourist attractions in San Francisco such as Golden Gate Park, Chinatown, and the Transamerica Pyramid building - a manifesto of architectural art. and modern architecture.
